Program includes swimming, hiking, and campfire activities. Deadline: August 9. Bring bedding, food, cooking equipment, and camp stove or charcoal grill.

LEANTO SITE - About 2 miles east on the SATC section of AT. The side trail to the spring has been cut and blue blazed and a sign placed at the intersection. Also a trail leading southward to Victoria Trail has been marked. Construction of this shelter in the chain from Maine to Georgia can and should be a Trail Club project. September would be a good time to begin.

PINE HILL - Interest in the Arboretum is increasing, both for Natural History Society and SATC. An area along the Conodoguinet has been cleared for picnicing, wading, and "almost" swimming. Parking facilities are being improved. Workers on Memorial Day included Virginia Ricker, Marge Dupler, Ellis Kreider, Shirley Rhoads, Bill Shoemaker and Earl Shaffer. Others who appeared were chiefly "sidewalk superintendants". The campfire song session lasted until after ten o'clock, with occasional interruptions by squawking herons or hooting owls.
