THE BUSHWACK BULLETIN is published quarterly, in the months of Feb, May, Aug, and NOV, by the Susquehanna Appalachian Trail Club, Inc., P O Box 61001, Harrisburg PA 17106-1001. Dues are \$5.00 per yr for individuals; \$7.50 for families.

# FROM THE PRESIDENT

Enclosed with this issue of the BUSHWACK BULLETIN is an S.A.T.C. survey form for our members to complete.

The survey is intended to determine what our current membership wants in hiking diversity and other outdoor related activities. As the last such survey was conducted some eight years ago, the Club wishes to find out what current interests are among the members. The survey results will be used in guiding the future activities of our club.

When filling out the survey, please add comments or suggestions, if you have any, so that the board may consider your ideas.

Our Program Committee Chair, Jane Greber, will be collecting and tallying completed survey forms which you may mail to her, or simply give to a club board member or a hike leader on your next outing with the Club. Please take the time to fill out the survey, particularly if you are participating in Club activities, so we may have a greater scope of membership wants and needs.

\* \* \* \* \*

I would like to thank all those volunteers, who participated in our fall work project with the A.T.C. Mid-Atlantic Crew. Over twenty (20) S.A.T.C. volunteers contributed in excess of two hundred work hours to the side trail construction at Peter's Mountain Shelter, working together with the Crew volunteers. The work, itself, was technically involved—using a three point cable, pulley and winch system to move large, heavy rocks into position as steps on the steep trail to the spring. Altogether, approximately 85 steps were laid along, with much digging and filling.

A Sunday picnic lunch was provided by the Club, and set up by volunteers for everyone to share at the shelter and was enjoyed by all.

\* \* \* \* \*

The extent of volunteerism shown by our club in the work project was extra impressive, considering the necessary change of work weeks in the schedule after the BUSHWACK BULLETIN was mailed out to the members. It cannot be over emphasized of the continuing need for volunteers in our Club activities; whether it is a trail work trip, leading a hike, serving on a committee, presenting a program, etc. The point is, the Club

can only be successful in fulfilling its stated purposes as long as we have the volunteers, willing to give their time and energy freely. That's just one part of what the APPALACHIAN TRAIL EXPERIENCE is about.

Jeff Buehler, President

# YELLOWSTONE & GRAND TETONS

## NATIONAL PARKS

From July 17 to the end of August, between 12 and 14 club members scoured the Grand Tetons and Yellowstone National Parks.

Whether it was hiking the trails, climbing mountains, relaxing in hot springs, quick dips in frigid, snow-fed, crystal clear streams, horse-back riding or just good old-fashioned shopping, everyone had a memorable time. On top of everything else, the food was excellent.

The weather was also cooperative. While the rest of the nation was sweltering under terrific heat, we enjoyed moderate days and cool, if not cold, nights. [There was a frost on the cars one morning in Yellowstone.]

Of course, a few of us were almost blown out of our seats when a powerful wind-storm struck a rodeo we were attending in Jackson Hole. On the other hand, the scenery was spectacular and our people really developed an appreciation for Wyoming and its State Motto: "LIKE NO PLACE ON EARTH!"

I'd like to thank all of the members who participated in the Tetons-Yellowstone trip and helped to make it a memorable one. Everyone contributed in one way or another to its success.

/s/ John Kohn

*We extend our deepest sympathies to Allen, who has been a long time member and past President of this club.*

## AN EDITORIAL

Normally, as Editor, I refrain from making comments, but circumstances force me to break this practice on a subject of which I have some knowledge and expertise in regard to the proposal to change the orange blazes on the Tuscarora Trail to blue.

Back in 1954, when the Susquehanna Appalachian Trail Club was founded, Colonel Shumaker, the last President of the **Pennsylvania Alpine Club**, called me on the phone, gave me some pitfalls to avoid, and then **offered our club the Darlington Trail** to maintain. The Darlington Trail was founded in about 1906, and ran from Overview on Blue Mountain to the King's Trail, near Chambersburg. We could only locate it from Overview to Sterritts Gap, finding it signed but devoid of blazes.

On advice of Jean Stephenson, we blazed it in **blue**, only to find that blue on access trails, trails to springs and to the one shelter, was confusing to hikers, causing them to lose their way. Under Ruth Bolla's administration, as President of this Club, the color was changed to a pale pink, called **Flamingo pink**.

When the Tuscarora Trail was conceived, Dr. Maurice Goddard gave approval for construction through State Park and Forest lands, **with the provision that blue not be used**, and suggested airplane orange instead.

We do not know Dr. Goddard's reason for this limitation, but we do know our Club's stand, and we, gladly, switched to the orange. And, we do not want to go back to blue on a Trail the length of the Darlington Trail.

Had the Keystone Trail Association properly assigned a Committee to look into this situation, and report back, we are confident that the Committee would have discovered the reasons for the orange blazes, and that the result would have been different.

Or, if the Club proposing the change in color had only talked with the other Clubs' involved, our representative would have been able to better explain the reason for the orange blazes--rather than be caught flat-footed.

We are disappointed in this evidence of one Club's failure to cooperate with other clubs, trying rather to run the show in the usual high-handed manner. This is what resulted in the Cumberland Valley fiasco, resulting in the loss of some five years in promoting the cause of the Trail interests.

**"LET'S STRIVE FOR BETTER COOPERATION  
BETWEEN CLUBS!"**

This feature of the BUSHWACK BULLETIN was provide to give our newer members some ideas on where they can hike in our area, as well as to provide some help to our fledgling hike leaders, who do not know where they can lead a hike.

Over the period that we have been printing *OUR FAVORITE HIKES*, most of us have not saved them, or if you have saved them, how do you locate the hike you want. To alleviate this, we have provided an index.

This list of hikes is for your use--

**SO USE IT!!**

We can also provide you with copies of the past *Our Favorite Hikes*. Send a 32¢ stamp for each four requested to the Editor, with your name and address.
