MORAVIAN STAR TREK

(Christmas Season.)
Suggested by Bob Keck

Your mission, if you choose to accept, is to trek within the Lititz Quadrant & to count the Moravian Stars. Your count is **not** to include the street lights used since the 1930's nor quasars, black holes, superovas nor comets. Your leader may get lost. Therefore, you must be careful not to count the same star more than once.

- Meet behind the Lititz Mutual Ins. Co Building, left on W Main St.
- Start the Trek at the Pretzel House on W Main St., and follow this route:
- left on Spruce St
- left on W 4th Ave
- left on S Broad St
- right on E Second St
- right on S Cedar St
- left on E 3rd St
- left on S Cherry St
- right on E Marion St
- left on S Locust S
- right on Kissel Hill Rd
- left on S Oak St
- left on F Main St
- right on N Locust St
- left on Front St
- right on N Broad St
- right on E Lincoln St
- right on N Cedar St
- left on E Main St
- End at the Pretzel House on E Main

The trek is a night trek, level and about five miles in length.
